

CARPARK 4-BUTTON REMOTE INSTRUCTIONS

IMPORTANT INFORMATION

Operating Remote

Use the buttons shown below to operate the remote to enter and exit the carpark.

**Moore Street
Entrance Boom/Gate (1)**
(Down ramp from street)

**Globe B1 Carpark
Roller Door (3)**
(B1 carpark ramp)

**Globe B2 Carpark
Roller Door (2)**
(B2 carpark ramp)

**Moore Street
Exit Boom/Gate (!)**
(Up ramp to street)

Pedestrian Access (Exit Only)

Readers have been installed on the walls towards the bottom of the B1 and B2 ramps. To exit the carpark, swipe your normal building tag on the reader to open the roller doors and walk through.

Building Access

The remote includes an integrated tag at the back. Use this as you would a normal building tag at the building entrance, doors, lifts, the gym, and fire stairs.

Replacing Battery

The remote's battery should last up to a year, depending on how often you use it. If it stops responding properly, it's time to replace the battery.

Follow the instructions in the Carpark Remote Battery Replace document under the Useful PDF Documents at the following link.

<https://www.globeonmoore.com/residents>

Security

Residents are reminded to leave nothing valuable in their cars or storage cages, regardless of the increased security measures in the carpark.

No Visitor Parking

Residents are reminded that there are no visitor parking spaces anywhere in the carpark.

Lost/Stolen Replacement Remotes

A replacement remote can only be ordered by the unit owner or property manager using the online form at <https://www.globeonmoore.com>. Tenants must arrange a replacement through their unit owner or property manager. The replacement remote costs \$330 including GST.

The building maintains a strict policy of one remote per allocated unit parking space. Additional or extra remotes will not be provided for any reason.

Help/Questions
